## 1. INTRODUCTION

### 1.1 Overview

This document "AS Sertifitseerimiskeskus – Certificate Policy for Organisation Certificates" (CP) defines the procedural and operational requirements that Sertifitseerimiskeskus (SK) adheres to and requires entities to adhere to when issuing and managing Organisation Certificates such as e-Seal Certificates, Certificates for Encryption and Certificates for Authentication.

Issuing and managing of the Organisation Certificates by SK is based on The Regulation (EU) No 910/2014 [7] which establishes a legal framework for electronic signature and electronic seal.

This document only describes the restrictions to Certificate Policy for EU Qualified Certificates Issued to Legal Persons with Private Key Related to the Certified Public Key in a QSCD (QCP-I-qscd) and for EU Qualified Certificates Issued to Legal Persons (QCP-I) from ETSI EN 319 411-2 [11] ("QCP-I-qscd" and "QCP-I") and Normalized Certificate Policy from ETSI EN 319 411-1 [1] (NCP).

**The semantics of "no stipulation" in this document means that no additional restrictions are set and relevant provisions from QCP-I-qscd, QCP-I and NCP are applied directly.**

Issuing and managing of E-Seal Certificates by SK is based on the requirements of the Policy QCP-I-qscd: certificate policy for EU qualified certificates issued to legal persons with private key related to the certified Public Key in a QSCD and Policy QCP-I: certificate policy for EU qualified certificates issued to legal persons from ETSI EN 319 411-2 [11].

The certification service for e-Seals described in this CP SHALL be granted qualified status in the Trusted List of Estonia.

Issuing and managing of Certificates for Encryption and Certificates for Authentication by SK is based on the requirements for the policy NCP: Normalized Certificate Policy from ETSI EN 319 411-1 [1].

In case of conflicts the documents are considered in the following order (prevailing ones first):

- QCP-I-qscd;
- QCP-I;
- NCP;
- This CP;
- CPS .

This CP is a complete redesign of the previous “AS Sertifitseerimiskeskus - Certification Practice Statement” and “Certification Policy for Organisation Certificates.” Redesign of the aforementioned documents in accordance with the IETF RFC 3647 [3] and enforcement of this CP do not substantially change the provision of the respective certification service.

Pursuant to the IETF RFC 3647 [3] this CP is divided into nine parts. To preserve the outline specified by RFC 3647 [3], section headings that do not apply have the statement "**Not applicable**". Each first-level chapter includes reference to the relevant section of ETSI EN 319 411-1 [1] and ETSI EN 319 411-2 [11].

In this CP "SHALL", "SHALL NOT", "SHOULD", "SHOULD NOT", "MAY" and so on are to be interpreted as described in clause 3.2 of the ETSI Drafting Rules (Verbal forms for the expression of provisions) [2].

## **1.2 Certificate Policy Name and Identification**
