1. General information

These principles describe how SK ID Solutions AS (hereinafter referred as "SK") as a data controller ensures the protection of personal data in accordance with applicable laws. The aim of these principles is to provide information for the subscribers on the relevant issues related to personal data processing. SK confirms, that does not process special categories of personal data within the meaning of GDPR.

These principles do not concern the storage and processing of data of legal persons or other institutions. The person representing the legal person or other institution is not considered as natural person; it is an
authorized representative of the legal person or other institution, whose personal data is not covered by GDPR.

Should you have any questions relating to the processing of personal data we ask you to contact us using the following contacts:

Data controller:

SK ID Solutions AS  
Address: Pärnu mnt 141, 11314 Tallinn, Estonia  
Phone: 610 1880  
E-mail: info@sk.ee  
Fax: 610 1881

Registry code: 10747013

2. Definitions

Subsequently, we explain the definitions and abbreviations used in the present principles.

2.1. What is GDPR?

Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data, and repealing Directive 95/46/EC (GDPR)

Personal data is processed according to GDPR, however, please note, that as trust service provider, SK is also guided by the special requirements on personal data processing stipulated in eIDAS Regulation.

2.2. What is eIDAS Regulation?

As a trust services provider, SK is guided by the eIDAS Regulation in its activities and service provision. The regulation is directly applicable in the European Union, containing requirements and conditions for providing different trust services, including specific requirements for personal data processing.

2.3. What are personal data and what is personal data processing?

Personal data are any data concerning an identified or identifiable natural person, regardless of the form or format in which such data exist. Processing of personal data is any act performed with personal data (incl. collection, recording, storage, alteration, granting access to, retrieval and communication,
etc.) or several of the operations, regardless of the manner in which the operations are carried out or the means used.

### 2.4. Who is a third person?

A third person is any person (both legal and natural persons) who is not a contractual client, employee or authorized data processor of SK.

### 2.5. What is a certificate?

Digital data that facilitate electronical signing and identity verification, in which the public key relates to the natural person who owns the certificate. Certificates that enable either electronic identity verification or electronical signing are related to personal data.

### 3. SK’s principles on processing personal data

Privacy and personal data protection is very important to us, therefore we have adopted necessary organisational, physical and information technology security measures to ensure the integrity, availability and confidentiality of the data.

We have mapped the personal data we need for service provision and specified the purpose, extent and period of time, we need to store such data. We have laid down requirements and instructions for SK’s employees and authorized data processors, how to process personal data in a correct way. We grant access to personal data only for trained employees and authorized data processors, that have passed a relevant background check. SK’s employees and authorized staff are aware that they have the right to process personal data only to the extent necessary for them to carry out their duties or, as is the case with authorized data processors, fulfil the contractual obligations.

We confirm that the processing of personal data is legitimate, fair, fit for purpose, minimal, safe and transparent. All our activities are guided by applicable EU and Estonian legislation, policies and principles of SK as well as the present principles of processing personal data. The policies and principles of SK are available on SK’s website: [https://sk.ee/repositoorium/](https://sk.ee/repositoorium/).

SK is certified under the standard ISO/IEC 27001: 2013 “Information technology. Security techniques. Information security management systems.” This is a standard, that sets requirements for the organization’s information security system management processes and for critical information security assets, including technical, physical and organizational security measures to protect personal data.

### 4. Lawfulness of personal data processing

SK processes personal data only in a fair and lawful way, either for the performance of contracts or on the basis of consent or law. SK confirms that it only collects personal data for the purposes which have been clearly established and are legitimate, and limits the collection of personal data to the minimum necessary for meeting the objectives of such processing.
5. What personal data and for what purposes we process?

Personal data may only be processed for specific purposes and processing must have a legal basis.

SK processes personal data on three legal bases: processing is necessary for the performance of an agreement, the data subject has given consent or the processing is necessary for fulfillment of an obligation arising from law.

The processing of personal data for performance of an agreement means that we need personal data to provide a high quality service. We have defined what personal data SK needs for the provision of the service and we keep the amount of personal data processed to a minimum.

If you send us a query that contains your personal data, then by sending a query, you give SK your consent for processing.

Compliance with obligations arising from law is the processing of personal data that we are required to perform as a service provider by law. For example, we process personal data to respond legally justified queries from investigation authorities.

Below we explain the purpose for processing, legal basis and list of personal data for each action that, where personal data is processed.

<table>

*When we provide proxy validity confirmation service we process, via e-services, the personal data of the certificate owner for authentication, signing and validation if these certificates have been issued by another provider of certification services.

If you use the certificate issued by the SK for authentication or electronic signing in the e-service, we will transfer your personal data to e-service for the purpose of providing the service. We will only transfer your personal information to e-service with your consent, that means, only if you have initiated the authentication and/or electronic signing transaction by entering the corresponding PIN.
6. Right to obtain information and complaint submission

According to GDPR, a person has the right to access his/her personal data, request rectification, erasure, restriction and data portability.

Information about the operations performed by you with ID-card, Digi-ID or Mobile-ID can be obtained via [https://minutoimingud.sk.ee/](https://minutoimingud.sk.ee/). You can get information about your Smart-ID accounts and Smart-ID actions via [https://portal.smart-id.com/login](https://portal.smart-id.com/login). In addition, you may submit a corresponding request to SK.

The prerequisite for exercising the rights listed above, is that the person is uniquely identifiable. Therefore, we kindly ask that you submit corresponding request in electronically signed form to following e-mail address info@sk.ee. We will respond to the request within 30 days.

We emphasize that the request cannot be met in the following cases:

- the identity of the applicant cannot be identified;
- the applicant is not legally connected with the data;
- this would be contrary to the requirements of special laws;
- this would be in conflict with SK’s legal obligations;
- it may harm the rights and freedoms of another person;
- this may hinder the provision of the service or failure to provide the service;
- this may hinder the work of law enforcement agencies;
- it’s not technically possible.

If the processing of personal data is based on consent, at any time you can withdraw your consent by submitting an application in electronically signed form to following e-mail address info@sk.ee.

Should you find that your rights regarding the processing of personal data have been infringed, we ask you to send a electronically signed complaint via e-mail to kaebus@sk.ee, and we will reply to your e-mail within 30 days. If you find that SK’s response to your complaint is not satisfactory, you may, in the event of infringement of your rights, apply to the courts or the Estonian Data Protection Inspectorate.

Furthermore, you have the right to seek compensation for the material damage caused as a result of the infringement of your rights on the basis of the grounds and procedure laid down in the Law of Obligations Act.

7. Use of data via an authorized data processor

SK has the right, under the contract, to authorize another person (i.e. both natural and legal persons) to process personal data. Authorized processors are, for example, SK’s partners in issuing and servicing of certificates and solving client issues. SK as the controller of data provides the authorized processor with necessary instructions for data processing. SK is responsible for the authorized data processor’s
compliance with the personal data processing requirements. An authorized data processor may process personal data only for attaining the purpose. SK confirms that a contract for protection of confidential information and data protection agreements will be concluded with all authorized data processors.

An e-service that requests your personal data from SK on the basis of authentication or electronic signing initiated by you, is not the authorized processor of SK under the GDPR.

8. Disclosure or communication of personal data to third persons

SK does not disclose or issue personal data to third persons unless following cases:

1. Such an obligation arises from applicable legislation or measures adopted there under (e.g. transmission to investigation authority);
2. Such persons are involved in providing the services;
3. SK has the right for the purposes of performing a contract or ensuring contract performance to disclose the data to third persons, including credit information and debt collection companies and other persons handling debt claims, also to legal advisers and bailiffs if the person has failed to comply with the contract;
4. The person concerned gives his/her written consent to disclose the information to other third persons.

SK confirms that it will only disclose personal data to third persons to the extent necessary for the purposes for which the personal data are processed.

9. Period of storage of personal data

SK processes personal data only as long as necessary for fulfilling the purposes for which the personal data was collected or for fulfilling the obligations arising from applicable legislation. Please note that in order to provide trust services, we are guided by the eIDAS Regulation for the storage of personal data.

10. Amending the principles of processing personal data

SK has the right to unilaterally alter these principles of processing personal data in accordance with the requirements laid down in applicable legislation. The amendments will be published on SK's website https://www.sk.ee/.
